Career Objective

Computer Science undergraduate with strong expertise in Data Structures, Algorithms, and Java, seeking a Software Engineering role to build scalable and efficient backend systems. Passionate about solving complex problems and developing reliable, high-performance applications in real-world environments.

Skills

Programming Languages: Java, SQL, JavaScript

Web Technologies: HTML, CSS, JavaScript

Frameworks & Technologies: Spring, Spring Boot, Hibernate

Core Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP)

Tools: Git, GitHub, VS Code, Eclipse, Maven, Postman

Education

B.Tech Computer Science and Engineering

Kalasalingam Academy of Research and Education, Madurai

CGPA: 9.27 / 10

Coding Profile

- Solved 150+ Data Structures and Algorithms (DSA) problems on LeetCode covering arrays, strings, recursion, searching, and sorting concepts.

Projects

AI Mental health companion for students | *Python*

- Built a multimodal AI system using Python to detect emotions from text, audio, and video inputs, improving detection capability.
- Developed a Multimodal AI System to detect emotion from combination of these three inputs (text, audio and video).
- Designed a recommendation module to provide personalized mood-relieving suggestions based on detected emotions.

Carbon Footprint Calculator

- Developed a Carbon Footprint Calculator that calculates carbon emissions based on user inputs such as transportation, energy usage, and lifestyle habits.
- Implemented logic to analyze input data and generate accurate carbon emission estimates.
- Integrated Generative AI to provide personalized recommendations for reducing carbon footprint based on user behavior.

Internship

Java Tech Stack Intern – Infosys Springboard 7.0

- Completed internship training in Java Programming, Data Structures and Algorithms (DSA) with Java, and MySQL.
- Gained hands-on experience in object-oriented programming, problem-solving, and database management concepts.
- Worked on backend development fundamentals and practiced coding problems using Java.

Awards & Certifications

- Selected as a **Reliance Foundation Undergraduate Scholar** (2023) in recognition of academic excellence and merit.
- **JAVA Programming Certificate (Top Grade: S) – Codetantra (July 4, 2025):** Focused on Object-Oriented Programming (OOP), Collections, Multithreading, Core Java concepts, AWT, and Applets.
[View Certificate](#)
- **Database Management System Certificate – CodeChef (April 4, 2025):** Covered SQL, ER Diagrams, Normalization, and Database Design concepts.
